National Credit Union Administration, a U.S. Government Agency

keeping YOU up to Date

Who wouldn't be excited to find a super low price on a popular item?

What about downloading an app quickly, if you're told you can save 25% on your purchase?

Before you jump, take extra care. *Is this deal legitimate?

*Are you browsing a website with solid online security measures?

*Or could you even be looking at a fake app?

"Card fraud is a huge business,"

Criminals are going after the databases of online merchants and trying to engineer an account takeover. Crooks don't need to steal your credit card or debit card number. Instead, they use information found elsewhere, maybe via a breach, to gain access to your online account with a given retailer.

Once they're in, the crooks could get access to the credit card you had stored with the online retailer. They might order something online and pick it up in the store.

Sheridan Community Federal Credit Union takes Fraud very seriously.

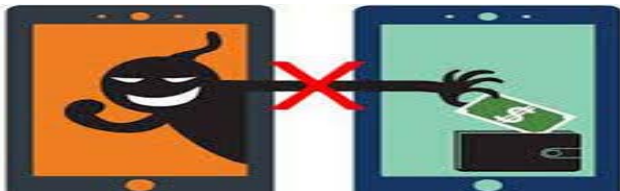

Fraud Protection

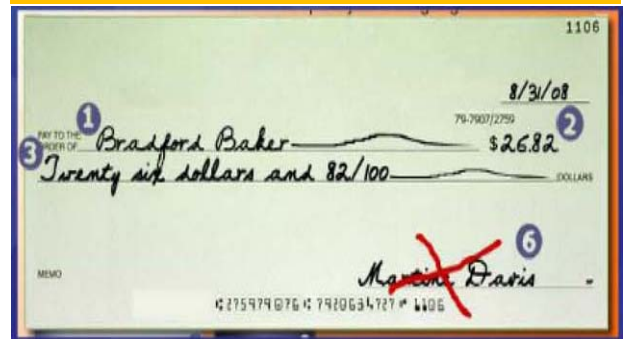

You are in control. Our Mobile App lets you Switch your card OFF or ON with a simple click of a button!!

To prevent unauthorized access to mobile banking and other personal data:

- ◆ If you will be downloading apps to your smart phone, start with an antivirus program. As small computers, these phones are subject to the same type of malware as larger devices.
- ◆ Download apps only from trustworthy distributors.
- ◆ Check out the publishers and developers of apps and read reviews. Steer clear of apps with only a few downloads.
- ◆ If you don't know the email sender, don't open the attachment.
- ◆ Lock your phone and install a remote wipe app, so you can erase sensitive data if your phone goes missing.

AVOIDING CHECK FRAUD ON YOUR PERSONAL CHECKS

- 1) LEAVE NO SPACE IN THE PAYEE FIELD
- 2) CLOSE THE SPACE BETWEEN NUMERIC AMOUNTS
- 3) USE THE ENTIRE LINE FOR WRITTEN AMOUNTS
- 6) NEVER PRE-SIGN A DRAFT

AND REMEMBER TO SECURE YOUR BLANK SHARE DRAFT AND CARBONS IN A SAFE PLACE!
